LOCHER

Your reliable partner for multipurpose and fire doors.

Locher has been making doors in South Tyrol since 2006. We make every individual part in our factory in Sarentino: from the locks to the hinges and through to the different door systems.

We have a great deal of experience in fire and multipurpose door systems, which means we are perfectly able to meet the needs of a market continuously seeking solutions. We have built a company all around doors.

Our production plant in Sarentino, South Tyrol.

SECTORS

We are able to meet a full range of requests according to industrial area.

COMMERCIAL
Shops, showrooms, restaurants, and bars.

HOTEL
Hotels, wellness centres, guesthouses, B&Bs, and hostels.

INDUSTRIES
Industrial factory buildings, warehouses, and infrastructures.

PRIVATE
Flats, villas, and condominiums.

DOORS

We have developed a full range of solutions for multipurpose doors and fire doors for interiors and exteriors.

PLANA EI 30
A collection of wooden doors with unique, original designs.

ENCORE EI 60-120
Laminate doors that adapt to any type of use.

ENPLUS EI 60-120

CONFIGURE **YOUR DOOR**

CONFIGURATIONS

As well as the door, we can offer a full range of colours and accessories to meet your customisation needs in full. Choose the configuration to suit your project.

CMF
Standard colour RAL 7035. Metal doors can be painted in a range of colours from the RAL range or in wood-effect finishes, on request.

SMART LOCK
Electronic door release with smart card. Available in black/grey/white.

AUTOMATIC CLOSURE
The door closure allows doors to close automatically. The force of closure can be adjusted to suit.

FLOOR SEAL
The floor seal retracts, closing the gap between the door leaf and the floor.

HANDLES
We can match your door system with a range of different materials and models for handles, as well as panic bar in the Slash and Twist models.

GLAZING
Fire doors can be fitted with glazed inserts on request. In the case of multipurpose doors, these are also available with openings with air grilles. Size 300x400 or 400x600 / Ø300.
